

15-16 Mar & 7-8 Jun 2024

## Advanced Horizontal, Vertical Bone and Soft Tissue Regeneration.

Learn the latest regeneration techniques  
from the renowned Dr Balaji.

4 Day  
Course

£3600

with £500<sup>+VAT</sup>  
Non-refundable  
deposit

## Objectives

- Understand the biology and type of defect
- Understand the anatomy of the surgical area
- Understand the biology and use of biomaterials
- Learn the surgical principles of both horizontal and vertical bone augmentation
- Learn surgical principles of soft tissue reconstruction to increase keratinised tissue around implants and newly regenerated bone

## Information

### When

15-16 Mar and 7-8 Jun 2024

### Where

Sheraton Skyline Hotel  
London Heathrow, Bath Rd,  
Harlington, Hayes, UB3 5BP

### Price

**Four Day Course: £3600 +VAT**  
£500 Non-refundable deposit required.

### Day 1

- Registration
- Welcome and Introduction
- Patient selection, Biology, Types of defects and Bio-Materials
- Implant placement in the aesthetic zone-Intact socket and socket defect
- Coffee Break
- Soft Tissue Handling, Anterior aesthetic zone, Horizontal Augmentation, Cheese Burger Technique
- Lunch break
- Hands - on: Flap design, Horizontal augmentation with Bio-Gide, CTG Harvesting and Suturing (Classical graft), Periosteal - Elastic technique.
- Welcome Dinner

### Day 2

- Applied anatomy Anterior maxilla
- Sausage technique Anterior maxilla
- Coffee Break
- Sausage technique Posterior Maxilla
- Soft tissue, suturing technique
- Lunch
- Complications
- Hands - on - Flap Design, Horizontal Augmentation, Cross-linked membrane, Periosteal Suturing Technique, CTG Harvesting & Suturing (Zucchelli Technique), Plastic model training, Flap design on the model.
- Discussion and case presentation

### Day 3

- Welcome and Introduction
- Vertical Augmentation - Anterior Maxilla
- Coffee break
- Consent and applied anatomy - mandible
- Vertical Augmentation - Posterior Maxilla
- Soft tissue - Part 2
- Lunch break
- Hands - on: Flap design, vertical augmentation PTFE membrane, CTG harvesting and fixing, periosteal - elastic technique, perioplasty, orbicularis muscle extension and suturing.
- Case presentation from delegates and discussion

### Day 4

- Vertical augmentation - posterior mandible
- Sausage technique mandible
- Coffee Break
- Vertical Augmentation - anterior mandible
- Flap design in the maxilla and mandible with models
- Lunch break
- Complications
- Test questions
- Hands - on - soft tissue : coronally repositioned flap, strip graft, Mucograft and FGG
- Case presentation from delegates, Discussion and Farewell and CPD certs
